Department of Biological and Chemical Sciences

MSc. /Postgraduate Diploma Biosafety

The programmes in Biosafety are tailored to meet the demand for Biosafety expertise associated with the use of modern biotechnology products in trade and to promote the benefits, awareness and understanding of modern biotechnology.

2015-2016

This programme in Biosafety is tailored to meet the demand for Biosafety expertise to control potential risks associated with the use of modern biotechnology products in trade and to promote the benefits, awareness and understanding of modern biotechnology in the region. The programme will be delivered in a blended learning format, consisting of a mixture of online and face-to-face modes of delivery for several courses.

Objectives

The aims of the programme are to:

1. Create a cadre of skilled Biosafety experts with knowledge of biotechnology within the Caribbean Region;
2. Sustain the benefits of biotechnology in the region while demonstrating the need for its safe application;
3. Provide students with Biosafety skills in biotechnology and the ability to identify the risks involved;
4. Provide a response to both national and regional Biosafety needs among various stakeholders as outlined in the Cartagena Protocol on Biosafety to the Convention on Biological Diversity.

Entry Requirements

The general pre-requisite for entry into the MSc./Postgraduate Diploma in Biosafety will be a Bachelor's degree from a recognized University at a minimum of Second Class Honours (or equivalent) in any area of the following disciplines:

- Any Biology, Life or Natural Sciences.
- Other disciplines related to Biosafety, **or**
- Law (LLB) plus knowledge or working experience of Biosafety, **or**
- An appropriate area in the Social Sciences, plus knowledge or working experience of Biosafety, or significant working experience in the Biosafety environment.

Persons with a Diploma **or** certificate training in Biosafety or Biotechnology and significant working experience in the Biosafety environment will be considered on a case by case basis.

Candidates registering for one or more of these courses must be eligible for Postgraduate matriculation at UWI.

Duration

Full time students are expected to complete the MSc. programme in 15 months and part-time students in 30 months.

Students enrolled in the Postgraduate Diploma programme are expected to complete the programme in 8 months.

Programme Structure / Course of Study

MSc. Biosafety

To be awarded the MSc. in Biosafety the student must complete 24 credits of the Core courses in the programme, one elective and a capstone or research project consisting of 9 credits. All courses are offered in an online format except BISF 6005.

Students are expected to complete a not-for-credit training course as an introduction to the online environment.

Postgraduate Diploma Biosafety

To be awarded the Postgraduate Diploma in Biosafety the student must complete 22 total credits in the programme, comprising three Core courses and one elective course. All courses are offered in an online format except "Molecular Diagnostics of GMO/LMO".

Students are expected to complete a not-for-credit training course as an introduction to the online environment.

LIST OF COURSES

Core courses

- Introduction to Biotechnology and Molecular biology (6 credits)
- Biosafety, Biotechnology and the Environment (6 credits)
- Biosafety Risk Analysis and Risk Management (6 credits)
- Biosafety of Genetically Modified Organisms (6 credits)
- Biosafety Research project (MSc students only) (9 credits)

Elective courses

- Legal Aspects of Biosafety in Biotechnology (4 credits)
- Molecular Diagnostics of GMO/LMO
(Lab Based Methods) (4 credits)

Cost (Self-financed programme)

MSc. Biosafety

Programme fee BDS \$ 30,000 (US \$ 15,000)

Postgraduate Diploma Biosafety

Programme fee BDS \$ 18,000 (US \$ 9,000)

Both Courses

Plus ID Card Fee BDS \$ 30.00 (US \$ 15.00)

Plus UWI

Registration fees per semester BDS \$510.00 (US \$ 255.00)

Note: EACH student in the Diploma and MSc Biosafety who chosen the course BISF6005- Diagnostics of GMO/LMO – lab based methods will need to make provision for an additional BDS \$2,000 (US \$1,000) to cover the cost of specialized laboratory supplies and lab fees that are essential for this course.

Fees quoted are for the 2014-2015 academic year and are subject to change in 2015-2016.
