THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1829/2003 of the European Parliament and of the Council of 22 September 2003 on genetically modified food and feed ⁽¹⁾, and in particular to Articles 7(3) and 19(3) thereof,

Whereas:

- (1) On 11 February 2011, Bayer CropScience AG ('the applicant') submitted an application, in accordance with Articles 5 and 17 of Regulation (EC) No 1829/2003, for the placing on the market of foods, food ingredients and feed containing, consisting of or produced from cotton GHB614 × LLCotton25 × MON 15985 and the subcombination LLCotton25 × MON 15985 ('the application') to the national competent authority of the Netherlands. The application also covered the placing on the market of genetically modified cotton GHB614 × LLCotton25 × MON 15985 and the subcombination LLCotton25 × MON 15985 in products consisting of it or containing it for uses other than food and feed, with the exception of cultivation.
- (2) By letter of 20 April 2011, the applicant was informed that, due to the reproductive characteristics of cotton GHB614 × LLCotton25 × MON 15985, the subcombination LLCotton25 × MON 15985 should be removed from the application in order to assess it separately. By letter of 15 June 2015, the applicant submitted an updated version of the application to the European Food Safety Authority ('the Authority'), limiting the scope of the application to the placing on the market of foods, food ingredients and feed containing, consisting of or produced from cotton GHB614 × LLCotton25 × MON 15985.
- (3) In accordance with Articles 5(5) and 17(5) of Regulation (EC) No 1829/2003, the application included information and conclusions about the risk assessment carried out in accordance with the principles set out in Annex II to Directive 2001/18/EC of the European Parliament and of the Council ⁽²⁾ and the information required by Annexes III and IV to that Directive. It also included a monitoring plan for environmental effects in accordance with Annex VII to Directive 2001/18/EC.
- (4) On 20 April 2018, the Authority issued a favourable opinion in accordance with Articles 6 and 18 of Regulation (EC) No 1829/2003 ⁽³⁾. The Authority concluded that genetically modified cotton GHB614 × LLCotton25 × MON 15985 is as safe as and is expected to have the same nutritional impact as its non-genetically modified comparator in the context of the scope of the application.
- (5) In its opinion, the Authority considered all the specific questions and concerns raised by the Member States in the context of the consultation of the national competent authorities as provided for by Article 6(4) and Article 18(4) of Regulation (EC) No 1829/2003.
- (6) The Authority also concluded that the monitoring plan for environmental effects submitted by the applicant, consisting of a general surveillance plan, is in line with the intended uses of the products.
