Result on internal enquiry on CEN/TS 15568 in doc 358

Date of document 2012-09-04

Expected action Info

Background

With document N 358, we asked WG 11 experts on their position how we should proceed with CEN/TS 15568 "Sampling"

Additionally to the comments we received following doc N 358, we received the following e-mail from France:

Regarding this Technical Specification, France has no comment because we do not use and have no interest in this Technical Specification (this document is not implemented in the French national collection).
