## DATE FILTER

The Date filter in new BCH is different from the old /current BCH. The main difference is that in the new BCH, besides selecting a pre-determined date range (e.g. "Last 7 Days"), you can also *specify a date range* ("Custom Range") and *select a specific day of any year*. Please see 2 examples below.

## How to search by a Date range in Date filter

When you open the Date filter, <u>you do not have to click on "Custom Range"</u>. Start selecting the required dates, and "Custom Range" will be selected automatically.

To understand how this feature works, please follow the following steps below:

- 1. Go to Search: <u>https://bch.cbddev.xyz/search</u>
- 2. No need to select any filters. We are just searching for a date range. Click on **Date** filter. You will see the box below:

3. Lets' find **ALL records that were published from 1 January** <u>2019</u> to 31 March <u>2020</u>. Click on the little calendar button. A calendar opens:

5. In the second calendar on the right: select **31 March 2020** by using the arrow <u>or</u> two dropdown lists like in Step 4 above. Then click on number **31**.

NOTE: as you select dates, the calendars on the left and on the right will move/change because the arrows apply to both calendars. That is normal.

Look at the dates at the bottom (see below) – those are the dates you have selected, which are "1 January 2019 to 31 March 2020":
